2.0 **Terms of Reference:**

2.1 The India textile sector is envisaging a major growth trajectory despite the present global slowdown. It is, thus, vitally important to understand the present fibre availability in the country, and the likely demand growth domestically and internationally in the coming year.

2.2 The Group would also analyze whether and how India would be in a position to have self-sufficiency in the fibre not only to meet its own demand for internal consumption, but also for exports – of fibre as also of the value added finished products.

2.3 Unlike global trend India is more dependent on cotton – the ratio of cotton to man-made fibre being 60:40 while the reverse is the case worldwide. The issue of promoting all fibres equally and equitably has also to be analyzed in detail so as to ensure balanced growth of the entire sector keeping in mind future trends and the present consumption pattern both domestically and internationally.

- 2.4 The study also needs to elaborate on the concerted interventions in policy areas for augmenting investment, support mechanisms both fiscal and non-fiscal front to the growth and competitiveness of this labour intensive manufacturing sector. The purpose is to make the sector globally competitive.
- 3.0 The Chairman of the Working Group may co-opt experts/ representatives of other agencies, as may be considered necessary.
- 4.0 Non-official members shall be entitled to payment of TA/DA by the Ministry of Textiles as per rules and regulations of TA/DA applicable to Grade-I officers of the Government of India in terms of SR 190(a) and appendix-2 to SR 190.
