

# COTTON

## 1. Introduction

Cotton is one of the most important commercial crops cultivated in India and accounts for around 24% of the total global cotton production. It plays a major role in sustaining the livelihood of an estimated 6 million cotton farmers and 40-50 million people engaged in related activity such as cotton processing & trade. The Indian Textile Industry consumes a diverse range of fibres and yarns and the ratio of use of cotton to non - cotton fibres in India is around 60:40 whereas it is 30:70 in the rest of the world.

Apart from being the provider of a basic necessity of life i.e. clothing which is next only to food, cotton is also one of the largest contributor to India's net foreign exchange by way of exports in the form of raw cotton, intermediate products such as yarn and fabrics to ultimate finished products in the form of garments, made ups and knitwear. Due to its economic importance in India, it is also termed as "White-Gold".

## 2. National Scenario

### 2.1 Acreage under cotton and yield:

India got 1<sup>st</sup> place in the world in cotton acreage with 126.80 lakh hectares area under cotton cultivation i.e. around 40% of world area of 313.30 lakh hectares. Approximately 67% of Indian's cotton is produced on rain-fed areas and 33% on irrigated lands. In terms of productivity, India is on 36<sup>th</sup> rank with yield of 436 kg/ha.

Table-1: Cotton Acreage and yield in last 5 years

<b>Cotton season</b>	<b>Cotton Acreage (in lakh hectares)</b>	<b>Cotton Yield (Lint in Kg/ha)</b>
<b>2017-18</b>	125.86	500
<b>2018-19</b>	126.14	449
<b>2019-20</b>	134.77	460
<b>2020-21</b>	132.85	451
<b>2021-22</b>	123.71	428
<b>2022-23</b>	129.27	443
<b>2023-24(P)</b>	126.80	436

Source: As per Meeting of the Committee on Cotton Production and Consumption (COCP) held on 24.06.2024. P-Provisional.

### 2.2 Production and consumption of cotton:

India is the only country which grows all four species of cotton G. Arboreum & G. Herbaceum (Asian cotton), G. Barbadense (Egyptian cotton) and G. Hirsutum (American Upland cotton). G. Hirsutum represents 90% of the hybrid cotton production in India and all the current Bt cotton hybrids are G. Hirsutum. In India, majority of cotton production comes from 9 major cotton growing states, which are grouped into three diverse agro-ecological zones, as under:-

- i) Northern Zone - Punjab, Haryana and Rajasthan
- ii) Central Zone - Gujarat, Maharashtra and Madhya Pradesh
- iii) Southern Zone - Telangana, Andhra Pradesh and Karnataka.

Apart from the above the cotton is also grown in the state of Odisha and Tamil Nadu. India is having 2<sup>nd</sup> place in the world with estimated production of 325.22 lakh bales (5.53 Million Metric Tonnes) during cotton season 2023-24 i.e. 22.96% of world cotton production of 1418 lakh bales (24.12 Million Metric Tonnes). India is also the 2<sup>nd</sup> largest consumer of cotton in the world with estimated consumption of 323 lakh bales (5.49 Million Metric Tonnes i.e. 21.96% of world cotton consumption of 1469 lakh bales (24.98 Million Metric Tonnes).

Table-2: Production and consumption of cotton in last 7 years

<b>Cotton Year</b>	<b>Production (in lakh bales)</b>	<b>Consumption (including MSME, non-MSME and Non Textile) (in lakh bales)</b>
<b>2017-18</b>	370.00	319.06
<b>2018-19</b>	333.00	311.21
<b>2019-20</b>	365.00	269.19
<b>2020-21</b>	352.48	334.87
<b>2021-22</b>	311.17	322.41
<b>2022-23</b>	336.60	313.63
<b>2023-24 (P)</b>	325.22	323.00

Source: As per Meeting of the Committee on Cotton Production and Consumption (COCPC) held on 24.06.2024. P-Provisional.

**2.3 Import and Export of cotton:**

One of the largest exporter of cotton with estimated export of 28 lakh bales (0.48 Million Metric Tonnes) i.e. 4.85% of world export of 577 lakh bales (9.82 Million Metric Tonnes) in 2023-24. Although India is a leading producer and exporter of cotton, some quantity i.e. less than 10% of the total consumption of cotton in India is imported by the textile industry to meet their specific requirement.

Table-3: Import and export of cotton during last 7 years

<b>Cotton season</b>	<b>Import (in lakh bales)</b>	<b>Export (in lakh bales)</b>
<b>2017-18</b>	15.80	67.59

### 3. International Scenario:

3.1 As per ICAC Journal ‘Cotton This Month’ – 4<sup>th</sup> September 2024”, Global production for 2023-24 is projected at 24.12 million tonnes (1418 lakh bales) which is 1.27% lesser in comparison to previous year’s production of 24.43 million tonnes (1437 lakh bales). Global cotton consumption is projected at 24.98 million tonnes (1469 lakh bales) which is 5.67% higher in comparison to previous year’s consumption of 23.64 million tonnes (1390 lakh bales). Global cotton export is projected at 9.87 million tonnes (580 lakh bales) which is 18.6% higher in comparison to previous year’s export of 8.35 million tonnes (491 lakh bales). Global cotton import is estimated at 9.82 million tonnes (577 lakh bales) which is 19.3% higher in comparison to previous year’s import of 8.23 million tonnes (484 lakh bales). Global ending stocks is estimated at 18.56 million tonnes (1091 lakh bales) which is lesser by 4.23% in comparison to previous year’s ending stock of 19.38 million tonnes (1140 lakh bales).

3.2 Details of major country-wise area & productivity, production, consumption, export and import are as under:-

#### Area & Productivity (Yield)

**Table-5: Area & Productivity –Global Scenario for last 7 years**

## 4. Minimum Support Price (MSP) Operation

- 4.1 The Cotton Corporation of India Limited (CCI) has been nominated by the Government of India for undertaking MSP operations in the event when prices of seed cotton (kapas) fall below the MSP level for procuring kapas offered by the cotton farmers as per MSP guidelines in various APMC market yards at MSP rates.
- 4.2 Before commencement of the Cotton Year (Oct. to Sept.), every year MSP is recommended by the Commission for Agricultural Costs and Prices (CACP) based on the formula of 1.5 times of cost of production (A2+FL) so as to ensure reasonably fair remuneration i.e. at least 50% over cost of production to farmers.
- 4.3 Accordingly, taking into consideration the recommendation of CACP, Ministry of Agriculture declares MSP for two basic varieties of cotton viz. Medium Staple length (staple length of 24.5 mm to 25.5 mm & micronaire value of 4.3 to 5.1) and long staple length (staple length of 29.5 to 30.5 mm & micronaire of 3.5 to 4.3). Based on the Support Price of these two basic varieties of Seed cotton (Kapas) and taking into account the quality differential, normal price differential and other relevant factors, the MSP for other classes of Seed cotton (Kapas) is fixed by the Office of Textile Commissioner.
- 4.4 For cotton season 2024-25, Government of India has increased MSP of cotton by about 7.5% as under:

**Table-10: MSP fixed by Ministry of Agriculture during last 7 years**

Cotton Season	Medium Staple (Staple length 24.5 mm -25.5 mm & Miconaire 4.3 - 5.1)			Long Staple (Staple length 29.5 mm -30.5 mm & Miconaire 3.5 - 4.3)		
	MSP rate (Rs./Quintal)	Increase in MSP		MSP rate (Rs./Quintal)	Increase in MSP	
		Rs./Quintal	%		Rs./Quintal	%
2017-18	4020	160	4.15%	4320	160	3.85%
2018-19	5150	1130	28.11%	5450	1130	26.16%
2019-20	5255	105	2.04%	5550	100	1.83%
2020-21	5515	260	4.95%	5825	275	4.95%
2021-22	5726	211	3.83%	6025	200	3.43%
2022-23	6080	354	6.18%	6380	355	5.89%
2023-24	6620	540	8.88%	7020	640	10.03%
2024-25	7121	501	7.57%	7521	501	7.14%

**Table -11: Procurement under MSP during last 7 years**

Cotton Season	Production (Lakh Bales)	Procurement under MSP Operations	
		Qty. in Lakh Bales	%age of Production
2017-18	370.00	03.91	01.06
2018-19	333.00	10.78	03.24
2019-20	365.00	124.61	34.14
2020-21	352.48	99.33	28.18
2021-22	311.17	00.01	-
2022-23	336.60	-	-
2023-24	325.22	32.84	10.10

In 2021-22 & 2022-23, cotton prices were ruling above MSP. Hence, no MSP support required by farmers.

**5. Steps taken for development of cotton sector:**

**5.1 Supporting the cotton farmers by procuring cotton under Minimum Support Price (MSP) Operations:**

The main objective of MSP is to ensure remunerative prices to cotton farmers by providing them an alternate price at which cotton can be sold by them. MSP system ensures remunerative price to cotton farmers and saves them from distress sales in any eventuality of cotton prices falling below MSP.

During cotton season 2019-20, due to lockdown caused by COVID-19 pandemic in India and across the globe from mid of March 2020 had created an unprecedented crisis. In such situation when there were no buyers for farmers’ cotton, CCI supported them under MSP operation by operating 423 procurement centres in 11 cotton growing states. CCI made a record procurement of 105.15 lakh bales (equivalent to around 546.80 lakh quintals kapas) valuing around Rs. 28,500 crores. Besides this, 19.46 lakh bales valuing Rs. 5,055 crore were procured from 3.45 lakh cotton farmers by Maharashtra State Coop. Cotton Growers Marketing Fed. Ltd as sub agent of CCI in Maharashtra. Thus, an amount of Rs. 33,555 crores were disbursed to around 25 lakh cotton farmers directly into their bank accounts.

During cotton season 2020-21, when India was at a critical stage in COVID-19 pandemic due to its’ deadly second wave, CCI was functioning in 11 cotton growing states with 450 procurement centres to safeguard the cotton farmers and to avoid the eventuality of distress sale by them. With this intervention, CCI procured 91.89 lakh bales (equivalent to around 482 lakh quintals kapas) valuing around Rs. 26,700 crores under MSP operations directly from the farmers. Besides this, 7.44 lakh bales valuing Rs.2102 crore were procured from 1.37 lakh cotton farmers by Maharashtra State Coop. Cotton Growers Marketing Fed. Ltd as sub agent of CCI in Maharashtra. Thus, an amount of Rs. 28,800 crores were disbursed to around 20 lakh cotton farmers directly into their bank account.

During Cotton season 2023-24 also, CCI has immensely supported the cotton farmers and procured 32.84 lakh bales valuing Rs. 11,712 crore under MSP operations, benefitting about 7.25 lakh cotton farmers in all cotton growing States.

## 5.2 Developed a Farmer Friendly Mobile App “Cott-Ally”:

Developed “Cott-Ally” mobile app in nine regional languages to enhance awareness among cotton farmers about MSP rates, nearest procurement centers, and additional features such as payment tracking, videos on best farming practices, weather reports, latest cotton-related news, grievance redressal and live chat support.

## 5.3 On-the-spot Aadhar-based farmer registration:

CCI has implemented an on-the-spot Aadhar-based farmer registration from 1st October 2023 onwards and payments through National Automated Clearing House (NACH) of National Payments Corporation of India (NPCI) directly in their Aadhar linked bank account which enables the benefit of MSP scheme only to genuine cotton farmers.

## 5.4 E-auction:

CCI is selling its entire stock through online independent e-auction managed by a PSU. This ensures complete transparency, proper price discovery and realization without any manual intervention.

## 5.5 Efforts for traceability of cotton from processing till sale:

CCI is implementing QR code using Block Chain Technology for traceability from processing of cotton and warehousing till its e-auction sale to the buyers since October 2023. This will create a benchmark to the textile industry by giving assurance of the quality of cotton and will be a milestone for development of brand image of Indian cotton.

## 5.6 Branding of Indian Cotton:

Kasturi Cotton Bharat programme of Ministry of Textiles is a first of its kind branding, traceability and certification exercise carried out jointly by the Government of India, Trade Bodies and Industry to promote Indian Cotton. Stakeholders across the supply chain including farmers, Ginning Units, Spinning Mills, Processing Houses, Weaving Units, Garmenting Units, Home Textile manufacturers and even Retailers and Brands will be involved in a collaborative effort to promote and enhance the value of Indian Cotton across the domestic and overseas markets.

To encourage the Trade and Industry to work on the principle of self-regulation by owning complete responsibility of Traceability, Certification and Branding of Kasturi Cotton Bharat, MoU has been signed between CCI on behalf of Govt. of India, Ministry of Textiles and TEXPROCIL. The Ministry of Textiles is driving this initiative in a mission-oriented approach, allocating budgetary support matching with the contribution of Rs.15 crores from Trade & Industry Bodies. Spanning three years from 2022-23 to 2024-25, this collaborative effort anticipates a positive impact on the entire Indian Textile Industry, fostering an elevated global perception and value for Indian Cotton. So far, Rs. 10 crores have already been released by Ministry of Textiles towards this initiative.

This initiative will help in reduction in import dependency due to availability of quality cotton within India. Authentic quality of cotton will enhance quality of finished product i.e. yarn, fabric, suiting, shirting, garments, sarees, etc and will help the industry in capturing more export opportunities for foreign exchange earnings. This will also motivate the cotton farmers to adopt best farm practices and fetching better price for their quality cotton.

Milestones achieved in this initiative are as under:

- Certification protocol has been finalized for standardization of quality for 29 mm and 30 mm cotton, which is under long staple cotton category. The sampling and testing are being carried out through authorized National Accreditation Board for Certification Bodies and NABL-accredited agencies/labs.

- All the ginners in the country have been empowered to produce Kasturi Cotton Bharat brand as per stipulated protocol. Leading companies and associated Ginning units are being registered for participating Kasturi Cotton initiative and 392 units on-boarded including 330 Ginners & 62 supply chain members.
- To provide complete traceability of Kasturi Cotton Bharat across the supply chain, QR based certification technology are being used at each stage of the processing and a blockchain based software platform will provide end to end traceability and transaction certificate. In this regard, Microsite with QR code verification and Block Chain technology has been developed.
- Kasturi Cotton Bharat website has been launched and provide a digital platform for necessary information and updates on this initiatives. It also highlights the registration process for ginners to produce Kasturi Cotton Bharat Brand and its processes that make the branded Indian cotton unique.
- Kasturi Cotton Bharat launched at International level at 81st Plenary Meeting of the International Cotton Advisory Committee (ICAC) held in Mumbai during 2nd to 5th Dec.2023. During this event, Hon'ble Union Minister of Textile also unveiled Kasturi Cotton My Stamp.
- As on 31.08.2024, 47,100 bales certified as Kasturi Cotton Bharat including 43,400 bales of CCI.
